Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in
the vehicles listed above and as a result is conducting a safety recall. We apologize for any
inconvenience this action may cause; however the safety and continued satisfaction of our
customers are of the utmost importance to us.

Reason for this recall

It has been decided that on some vehicles the LP supply hose from the regulator to the manifold may not be tightened properly at the regulator.
A propane leak, in the presence of an ignition source, could result in a fire
and/or explosion causing property damage and/or personal injury.

What we will do

Keystone has notified our dealers regarding this situation. The remedy is
to verify the propane hose connection to the regulator is tightened properly
and does not leak. The service and parts required for this corrective action
will be provided at no charge.

What we need you to do

At your earliest convenience, please make an appointment to have your
RV serviced by your dealership. The labor time to perform this correction
is approximately one hour. Please ask your dealer if you wish to know
how much additional time will be needed to schedule and process your RV
for this repair.

If you have questions

Your dealer is best equipped to obtain parts and provide service to ensure
your RV is corrected as promptly as possible. If your dealer is unable to
assist or if you take your RV to your dealer on the agreed service date, and
the dealer does not remedy the condition within a reasonable amount of
time, or without charge to you, please contact Keystone Customer Service
by calling 1-866-425-4369.

If after contacting Keystone Customer Service you are still not satisfied we have done our best to
remedy this situation, you may also submit a written complaint to: Administrator, National
Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590.
