the NEXT GENERATION of RVs
www.keystonerv.com/Alpine
Keystone RV is proud to introduce its most Livable, Innovative and Luxurious full time fifth wheel – Alpine.

Extensive planning went into the creation of this “Next Generation” RV. Alpine showcases many game changing features like its Spacious Wide Body Interiors, Huge Panoramic Frameless Windows and Enormous Slide Room Heights. These features simply won’t be found in other high profile fifth wheel brands.

Alpine was designed with you in mind – a customer who deserves and demands the highest level of Quality and Craftsmanship available in the marketplace today.

- Team Alpine
With an impressive list of industry-leading construction advancements, Alpine sets the bar in four season living. But don’t just take our word for it — look at these official test results from a world leader in heating and cooling technology — Dometic Corporation. Subjected to below zero temperatures inside their legendary test chamber, the following temperatures were recorded inside an Alpine with the thermostat set at 74°:

- Living room ...................... 72°
- Bedroom .............................. 70°
- Bathroom ............................. 75°
- Pass-Thru/Utility Center .... 58°*

Of course, inside temperatures are only part of the story. With our industry leading “Thera-Shield 37” package, all the holding tanks and dump valves remained completely operational on our test unit with recorded temperatures consistently above 50° in these critical areas.

Not everyone needs this kind of protection, but when four season comfort becomes important, make sure you demand the very best... demand an Alpine!

*Testing was done in a controlled independent environment.

A. OVERSIZED PASS THROUGH STORAGE – Alpine boasts the industry’s largest pass-through storage at over 170 cubic feet. You won’t have to worry about your possessions sliding around as we have used non-skid rubber diamond flooring and metal D-rings to secure them. Plus, ducted heat in the storage area as well.

B. KETTLE STORAGE UNDER REFRIGERATOR allows for extra storage for large pots and pans.

C. The Alpine’s FULLY ENCLOSED AND HEATED “WATER WORKS” compartment houses your dump valves, low point drains, exterior high pressure sprayer, black tank flush hookup, quick winterization kit and city water hookups.

D. FRAMELESS WINDOWS add to the sleek and luxurious look of the Alpine exterior.

E. Storage compartments are easy to access in the Avalanche thanks to the motorhome style “SLAM” BAGGAGE DOORS. These compartment doors feature easy opening pad handles with locks for added security of your stored valuables.

F. CORIAN® SOLID SURFACE COUNTERS, SINK COVERS, HINGED RANGE COVER – Alpine uses some of the finest solid surface material available and includes fitted sink covers and range cover. The range cover is hinged so that storage is convenient, easy, and out of the way.
SET UP YOUR CAMPsite in SECONDS
Camp sites and dry camping opportunities are rarely level. Even well maintained sites can have an uncomfortable slope. Once the unit is hooked up to your site, other nuances can occur: coach rocking, doors swinging, cookware rolling or sliding, or appliances not functioning properly. Setting up camp can be equally as annoying. To achieve level, as many as four manual or electric jacks may need to be adjusted. Manual jacks can rust over time making this job even more difficult and time consuming. Simply put, camping shouldn’t be this difficult! Enough is enough! It’s time for Level Up!

One Touch 6-Point Level-Up System

- Power up/power down system that weighs less than 80 lbs. TOTAL, but can lift 60,000 lbs!
- Leveling jacks operate in pairs, eliminating the worry of twisting and damages
- Extruded jack legs made of 6061-TG anodized aluminum alloy
